

Did'ja Know?

Ancient peoples believed there were two types of water: dead water that didn't flow, and "alive" water which flowed and moved. So, streams and rivers had "alive" waters!

Creative Corner

Color the beautiful picture of "living" water and the plants & animals that need it!

Living Water

John 7

Jesus taught the people, "If you believe in me, your heart will be full of living water, and your spirit will never be thirsty."

The people in the crowd argued with each other.

A woman said, "This is God's prophet."

"No, this is God's promised messiah!" said a man.

Another man said, "This guy is from Galilee. That's not where the messiah is supposed to come from."

"I think he's none of those things. He should be arrested!"

So no one could agree about who Jesus was. But they could agree that no one had ever spoken about God the way he did! And many people believed in him.

Living Water

Water that moves you to love God & others. Jesus gives us this water.

Fun Stuff

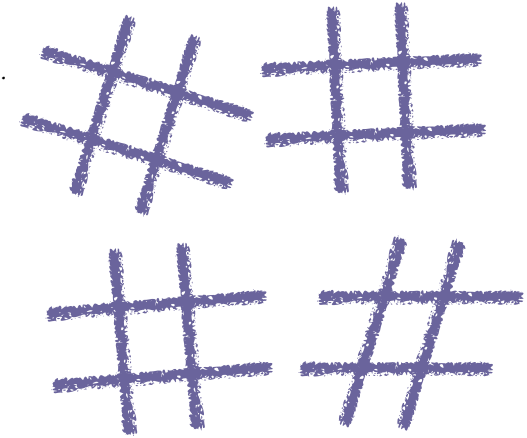

Spot the Difference

You may see two exact seahorse families below, but there are differences. At least SIX! Can you find them? Color the seahorses after if you'd like.

TICTACTOE

Nice Quote!

"Human nature is like water. It takes the shape of its container."

- Wallace Stevens
American Poet

Try it At Home

If you have food coloring at home, color several glasses of clear water with an adult helper. Compare what each of you thinks first when you see the differently colored water!
